

HOOF AND HORSE CARE

## What YOU can do to help your horse build **STRONG HOOVES.**

The best diet for horses contains a large variety in nutrients. This is why wild horses not only feed on grasses and grains, but also on roots, stems, flowers, fruits and seeds. These are found in dozens of different meadow and woodland plants.

Just mix in with the main feed

Domestic horses need exactly the same natural diet. Unfortunately, when they are fed on a standard diet and only have small pastures for grazing, they simply cannot find the same variety in phytonutrients. The first signs your horse is missing essential nutrients are often poor horn quality, sensitive or cracked hooves and a less glossy coat.

**Make sure your horse is getting all the essential nutrients, simply by adding Diamond Hoof & Horse Formula to the horses' daily diet!**

## TIP

Did you know you can also use Hoof & Horse formula as a **health & vitality booster?**

- simply double the daily dose in the first 2-4 weeks.

Then continue to use as food supplement.

Can also be used with a restricted diet.

HOOF CARE

# Do you know what is missing from your horse's diet?

**Diamond Hoof & Horse Formula is a complementary feed\* for domestic horses of all ages, which helps to build strong hooves.**

It contains the primary nutrients that domestic horses are usually missing, if fed on a standard diet of grasses, hay and grains. Made with a rich combination of meadow plants, herbs, seeds and sea algae, every measuring cup is packed with essential nutrients such as amino acids, omega-3 fatty acids, vitamins, minerals and trace elements. The Diamond Digestive Formula™ guarantees all ingredients can effectively be used by the horse.

\*The main feed needs to consist of grasses/hay, grains and plenty of fresh drinking water. Horses of all breeds also need plenty of daily exercise.

HOOF CARE

Helps to build  
strong hooves.

Promotes a healthy  
immune system.

Horse can effectively  
use all nutrients.

No heating of  
ingredients!

50% less sugar than

## DIAMOND HOOF BIOTIN

### ***Stimulates horn growth***

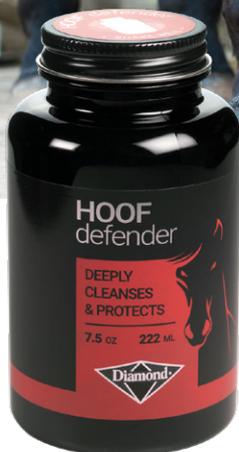

Complementary feed. Helps build strong hooves, glossy coat and healthy skin. Use also for sensitive hooves and poor horn quality. Contains not only Biotin, but also other vitamins and trace elements, for better results.

## DIAMOND THRUSH TREATMENT

### ***Blue gel formula***

This antiseptic blue gel formula reduces bacteria & fungi, without affecting healthy tissue. Bonds to the hoof protein to form a protective barrier between thrush and healthy tissue. As the color of the gel fades you know it is time to repeat.

# HOOF CARE

### **DIAMOND HOOF DEFENDER**

#### ***Deeply cleanses & protects***

Diamond Hoof Defender is an antiseptic product that cleans and disinfects the hoof. This helps protect against common hoof diseases, caused by bacteria and fungi (e.g. white line disease and thrush).

### **DIAMOND HOOF CONDITIONER**

#### ***Seals and shines***

Easy to use dual action formula. Hardens hoof and provides a barrier against infection. It also helps maintain elasticity and a healthy moisture balance. Covers imperfections and gives a shiny look. Very useful in extremely wet or dry conditions.
