

# SN COLLECTION

A TRADITION IN HORSESHOEING

# The Kerckhaert SN Collection

EN

## **The SN Collection, horseshoes for traditional shoeing.**

The SN Collection has its origins with Kerckhaert's very first riding horseshoe. The basic design of the collection draws on traditional European shoeing and the four generations of knowledge passed down from father to son. The collection is distinguished primarily by the sturdy Olympic clip that sits slightly back in the horseshoe. This traditional clip is set neatly into the hoof wall, allowing the horseshoe to form a beautiful unit with the hoof. The design of the horseshoes starts from the natural principles of the hoof and requires only minimal adjustments during the shoeing period.

FR

## **La gamme de fers SN, des fers pour une ferrage traditionnel.**

La collection SN a des origines qui remontent aux tous premiers fers à cheval d'équitation de Kerckhaert. La conception de base de la collection s'inspire du ferrage européen traditionnel et des quatre générations de connaissances transmises de père en fils. La collection se distingue principalement par le pinçon olympic solide qui repose légèrement en arrière dans le fer. Ce pinçon traditionnel repose bien dans le sabot, permettant au fer de former une belle unité avec le sabot. Comme la conception des fers à cheval commence à partir des principes naturels du sabot, ils ne nécessitent que des ajustements minimes pendant la période de ferrage.

DE

## **Die SN Hufeisen Kollektion, Hufeisen für den traditionellen Beschlag.**

Die SN-Kollektion hat ihren Ursprung im allerersten Reithufeisen von Kerckhaert. Das Grunddesign der Kollektion basiert auf dem traditionellen europäischen Hufbeschlag und dem über vier Generationen vom Vater an den Sohn weitergegebenen Wissen. Die Kollektion zeichnet sich vor allem durch die robuste Olympia-Kappe aus, die leicht in den Huf zurückgesetzt ist. Diese traditionelle Kappe fügt sich nahtlos in die Hufwand ein und sorgt dafür, dass das Hufeisen ein schönes Ganzes mit dem Huf bildet. Da das Design der Hufeisen auf den natürlichen Ausgangspunkten des Hufes basiert, müssen sie während des Beschlags nur minimal angepasst werden.

ES

## **La colección de herraduras SN, herraduras para un herraje tradicional.**

La colección SN se basa en la primera herradura para caballos de montar de Kerckhaert. El diseño básico de la colección se basa en la tradición de herraduras europeas y las cuatro generaciones de experiencia transmitidas de padres a hijos. La colección se distingue sobre todo por la sólida pestaña olímpica que queda algo para atrás en la herradura. Esta pestaña tradicional se ajusta muy bien en la muralla y permite que la herradura forme un buen conjunto con la pezuña. Como el diseño de las herraduras parte de los puntos de referencia naturales de la pezuña, apenas requiere ajustes mínimos durante el herraje.

## **De SN Hoefijzer collectie, hoefijzers voor traditioneel hoefbeslag.**

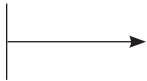

De SN Collectie vindt zijn oorsprong bij het allereerste rijpaardhoefijzer van Kerckhaert. Het basisontwerp van de collectie steunt op het traditionele Europese hoefbeslag en de vier generaties kennis die van vader op zoon is doorgegeven. De collectie onderscheidt zich vooral door de stevige Olympic lip die iets terug staat in het ijzer. Deze traditionele lip wordt netjes in de hoefwand gezet en laat het hoefijzer zo een mooi geheel vormen met de hoef. Het ontwerp van de hoefijzers vertrekt vanuit de natuurlijke uitgangspunten van de hoef, en vragen zo slechts minimale aanpassingen tijdens het beslag.

**INFO**

## **WHEN LESS BECOMES MORE**

### **Adjusted sizing SN Collection**

To make the SN Horseshoe Collection work even better for the farrier, it was recently updated. Farriers often remarked the overly extensive measurements of various SN models. By simplifying this extensive sizing, the SN Horseshoe Collection now offers the convenience and overview to shoe more with fewer models.
